WEB DEVELOPMENT EXPERIENCE

Web Design & Development Intern

HH Candle Collection I Aug 2025 - Dec 2025

- Designed, developed, and maintained a responsive business website using WordPress, HTML5, and CSS3.
- Managed website pages, product listings, images, and digital content using WordPress and WooCommerce.
- Customized website layouts and styling to align with brand identity and improve usability across devices.
- Collaborated directly with the business owner to gather requirements and implement website updates.
- Tested website functionality, identified issues, and implemented fixes to support a consistent user experience.
- Applied semantic HTML, accessibility, responsive design, and SEO best practices throughout website development.

SELECTED WEB PROJECTS

Haney Contractors — Website Design Lead
WordPress | Responsive Design | HTML/CSS

- Led the design direction for a contractor business website, coordinating design decisions with two team members.
- Guided the website's visual presentation, including layout, styling, and content organization.
- Applied responsive design principles to support a consistent user experience across desktop and mobile devices.
- Collaborated with team members to review the website, refine design choices, and improve usability.

Sunshine Ridge Childcare Center — Independent Accessibility Project
HTML | CSS | Responsive Design | Accessibility | SEO

- Independently designed and developed a responsive website for a childcare center as part of an independent study focused on web accessibility.
- Applied semantic HTML, logical heading structures, descriptive alternative text, and accessible navigation.
- Evaluated color contrast and accessibility using testing tools and incorporated accessibility best practices into the design.
- Implemented responsive layouts, metadata, and SEO best practices to improve usability and site structure.

Personal Portfolio Website
HTML5 | CSS3 | JavaScript | Responsive Design | GitHub

- Designed and developed a responsive portfolio website to showcase web development and design projects.
- Implemented JavaScript functionality and responsive layouts.
- Applied accessibility, semantic HTML, SEO, and performance best practices.
- Optimized website assets and deployed the completed site using GitHub Pages.

Currency Converter - Javascript Application
JavaScript | API Integration | HTML/CSS

- Integrated an external API to retrieve and display live currency exchange-rate data.
- Developed interactive currency conversion functionality with a responsive user interface.
